

Steps to Successful Adaptation

Adaptation Ladder of Engagement

Cities as Islands

- Complex array of activities on the island
 - Reliant on the surrounding space
 - Reliant on far away spaces for food & materials
- if you develop plans that include all aspects in the same strategy you can avoid maladaptation and get more cost-effective action!

National Adaptation Forum 2015

Develop ideas for urban adaptation working groups and symposia to help create a cohort to climb the Adaptation Ladder of Engagement together!

May 2015 ~ St. Louis, MO
